www.sentinelowl.org

North Bethesda, Maryland

Sentinel Owl Technologies is an accountable, DMV-based technology partner delivering managed IT, cybersecurity, compliance readiness, infrastructure consulting, custom applications, communications, security cameras, and IT asset disposition to businesses, contractors, clinics, nonprofits, and property owners across Washington, D.C., Maryland, and Northern Virginia.

■ CORE COMPETENCIES

- **Managed IT services & support** — help desk, monitoring, patching, endpoint and device management, backups, and vendor coordination.
- **Cybersecurity** — MFA, endpoint protection, identity and access cleanup, vulnerability reduction, and incident and cyber-insurance readiness.
- **Compliance readiness** — CMMC scoping and evidence, HIPAA essentials, and NIST and PCI control alignment.
- **IT infrastructure & cloud consulting** — network, cloud, and identity assessments, Microsoft 365, migrations, and roadmaps.
- **Custom applications & development** — portals, dashboards, intake and booking, databases, API integrations, and AI-assisted automation.
- **Managed websites & web services** — modern sites, redesigns, maintenance, performance and security cleanup, and hosting.
- **VoIP / hosted PBX** — deployment, call routing and intake cleanup, and white-label communications platforms.
- **Security camera systems** — design, installation, remote viewing, coverage review, and monitoring.
- **IT asset disposition (ITAD)** — pickup, intake, secure data destruction, remarketing, and responsible recycling.

■ REPRESENTATIVE PAST PERFORMANCE

Anonymized, client-approved outcomes.

AI-assisted surveillance automation. Designed and built an automated surveillance and monitoring workflow for a private client at approximately one-tenth the quoted cost of larger vendors, with stronger documentation and a cleaner operational handoff.

■ COMPANY SNAPSHOT

Organization: Sentinel Owl Technologies

Business type: Small business

Headquarters: North Bethesda, Maryland

Service region: Washington, D.C., Maryland (North Bethesda, Rockville, Bethesda, Silver Spring, Gaithersburg), and Northern Virginia (Arlington, Alexandria)

Delivery model: Remote and on-site

■ DIFFERENTIATORS

- **Single point of accountability** across IT, security, communications, web, cameras, and automation.
- **Local DMV operator** providing both remote and on-site support.
- **Consultation-first delivery** — discovery, defined scope, and a practical plan before work begins.
- **Compliance-minded execution** with audit-friendly documentation and evidence.
- **Plain-English reporting** and clean operational handoff.
- **Discreet, documentation-led delivery** for sensitive engagements.

■ CODES & CLASSIFICATIONS
